## X International symposium Controversies in glaucoma: Focus on dilemmas in diagnostics and treatment

## **Program**

November 10, 2021

- 14:00 14:05 **Welcoming speech and introductions** (prof. Kurysheva N., Russia).
- 14:05 14:25 Dilemma 1: Tonometry why is it required? Pros and cons.
- Part 1. The continuous IOP monitoring is more important than single tonometry measurements (prof. Kaweh M., Switzerland).
- Part 2. Peak, Mean or fluctuation, what matters most in glaucoma progression? (prof. Remo Susanna Jr., Brazil).
- 14:25 14:40 Dilemma 2: Perimetry vs OCT vs OCTA what is more reliable and how often it should be done? (prof. Shmetterer L., Austria-Singapore).
- 14:40 15:00 **Dilemma 3: Newly diagnosed glaucoma what should be done at first?** (prof. Kurysheva N., Russia).
- 15:00 15:10 **Discussion**.
- 15:10 15:25 Dilemma 4: Different forms of glaucoma are the approaches to hypotensive treatment similar? (prof. Ningli Wang, China).
- 15:25 15:40 **Dilemma 5: Maximum drug therapy or surgery what is better?** (prof Petrov S., Moscow, Russian Federation).
- 15:40 15:55 **Dilemma 6: Trabeculectomy vs Non-invasive Surgery vs MIGs what to choose?** (prof. Tarek Shaarawy, Switzerland).
- 15:55 16:00 **Discussion**.
- 16:00 16:20 Dilemma 7: Should neuroprotective therapy be prescribed if its effectiveness is not yet scientifically established (prof. L. A. Levin, Canada).

16:20 - 16:25 - **Discussion**.

16:25 – 16:30 - **Closing remarks** (prof. Kurysheva N., Russia).
